	<p>Mapping, and Event Management principles and best practices.</p> <ul style="list-style-type: none"> • Experience in Observability a plus. • Experience in configuring ServiceNow workflows and forms. • Experience with creating and maintaining ServiceNow objects like tables, business rules, client scripts, UI actions, UI policies, script includes, workflows etc. • Experience with User Management including groups, users, roles, ACLs, etc. • Excellent problem-solving and communication skills. • Relevant certifications in ServiceNow (e.g., ServiceNow Certified Implementation Specialist) is a plus. 	<ul style="list-style-type: none"> • Configure observability tools to inform on user behavior, system availability, capacity, etc. to ensure that everything is performing optimally. • Proven experience as a ServiceNow Developer with at least 5 years software development experience and can demonstrate strong development skills in the areas of ITSM/ITOM. • Experience in setting up and managing out of the box applications. • Proven experience of ServiceNow system administration. • Ability to demonstrate experience with determining the best possible solution. • Must be comfortable working independently with minimal oversight as well as comfortable working in a team setting swarming and peer programming. • Excellent problem solving and analytics skills, with proven experience of requirements gathering and translating requirements into technical deliveries. • Demonstrate excellent communication skills and be confident presenting ideas and designs to different stakeholder levels. 	

#2 NCS

NCS is a leading technology services firm with presence in Asia Pacific and partners with governments and enterprises to advance communities through technology. Combining the experience and expertise of its 13,000-strong team across 58 specialisations, NCS provides differentiated and end-to-end technology services to clients with its NEXT capabilities in digital, data, cloud and platforms, as well as core offerings in application, infrastructure, engineering and cybersecurity. NCS also believes in building a strong partner ecosystem with leading technology players, research institutions and start-ups to support open innovation and co-creation. For more information, visit www.ncs.co/careers/.

NCS's mission is to bring people together and harness technology to advance communities. As a leading technology services firm, operating across Asia Pacific in over 20 cities, our diverse 12,000-strong workforce delivers large-scale, mission-critical projects for governments and enterprises locally and regionally. Our NEXT capabilities of digital, cloud, platforms as well as our core offerings in Applications, Infrastructure, Engineering, and Cyber Security provide end-to-end technology solutions and services to our clients.

Job Positions	Pre-requisites	Key Responsibilities	Working Hours / Location
